EDUCATION

Bachelor of Science in Information Technology

From BK. Birla College(autonomous) of Arts Science and Commerce,Kalyan

SKILLS

Tech Skills

- HTML5, CSS, JavaScript, JAVA, C++, Python, SQL, PL-SQL

Hard Skills

- Microsoft Excel, Microsoft PPT, Microsoft Word, Word Press

Soft Skills

- Cooking, Sports, Communication Skills, Analytical Skills, Problem Solving Skill

PROJECTS

- **Calculator:** This Java program is a basic calculator that performs arithmetic operations based on user input. The program takes two floating-point numbers and an operator as input from the user and then uses a switch statement to execute the corresponding arithmetic operation. The supported operations include addition, subtraction, multiplication, division, exponentiation, and modulus. The program also handles division by zero by printing a warning message [Click Here](#)
- **Student Grade Tracker:** This Java program calculates the average marks, percentage, CGPA, and grade of a student based on their marks in seven subjects. It begins by prompting the user to enter their name and roll number. The program then asks for the marks in seven predefined subjects: English, Hindi, Marathi, History, Science, Geography, and Computer. It computes the total marks and calculates the average marks by dividing the total by the number of subjects. [Click Here](#)
